

International contact making seminar in Wroclaw, Poland 09 – 14 May 2004

In May 2004 The European Club of Disabled Youth and Polish Association of The Deaf, Department of Lower Silesia Region and Special Centre for Diagnosis and Rehabilitation of Children and Youth with Impediment of Ear are going to organize international meeting to come into contact with deaf young people from other countries. It will be realized by deaf, hard hearing youth and volunteers.

In connection with this we are looking for partners from other countries who would like to take part in the meeting.

We are going to invite deaf and hard hearing young people with their tutor-interpreter. Tutor-interpreter should know English and his pupil's Sign Language. During the meeting English will be the first language. Only two persons could represent every organization (one deaf or hard hearing and one tutor-interpreter).

The meeting is planned for 4 days without a trip. There will be a time for Polish organizations which do not work under government's direction.

The main purpose of that meeting is to get to know how different organizations work, what are their problems and functions. We would like to try to begin international cooperation.

We have an experience because we organized „Youth 3” project. Now, we want to show how we dealt with it and we want to prepare a new international project together.

Next, we want to organize an international course or youth exchange. We want to use Leonardo da Vinci project to create an international net of organizations which would be able to help each other.
